Any Content Area not empty may be used as a course entry point. This document describes how to change the course entry point.

1. In the Course Management menu click on Customization, then Teaching Style.

2. Scroll down to the Select Course Entry Point section, click on the drop down menu and select the Content Area students should see upon entering the course.

If you have any questions or concerns about this document, please contact the ITS Service Desk by calling (304) 293-4444 or by sending an email to ITShelp@mail.wvu.edu.
