

Click on the **Create Column** button on the left side.

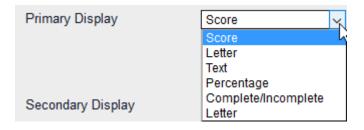

Provide a column name for the grade center column. The grade center name can be different from the column name. You can optionally add a description.

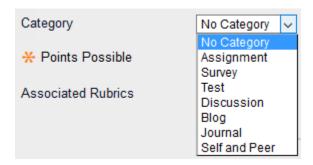

Choose the primary and secondary display. The primary display is what your students will see – only instructors see the secondary display version of the grade.

You can assign a category to the column.

Specify the maximum number of **points possible**. You can associate a **rubric** for grading. You can specify a **due date**.

Specify the maximum number of points possible. You can associate a rubric for grading. You can specify a due date. Choose the remaining options and click on the **Submit** button.
