

Reminders

From the full grade center, instructors can send email reminders for assignments and assessments, including manually created columns. Students and members of the groups will receive a system-generated email for the missing coursework that lists the course name, coursework, and due date where applicable.

Drag and Drop Files

When instructors create content items, assignments, and web links, they can drag files from their computers to the Attach Files area or use browse functions. This feature is also available to students when they submit assignments.

Submission Receipts

Within the Grade Center from the Reports menu, instructors can keep track of all student submissions, regardless of whether the attempt or assignment is deleted or the submission history is changed. A submission receipt is captured and includes information such as attached file information, date and time the student submitted it. This provides evidence for academic disputes and gives students assurance about their work.

For a group assignment, a receipt is generated for each group member when a student submits on behalf of the group, and the anonymous state of an assignment is respected.

For assignments with multiple attempts, students receive a different number for each submission.

Success! Your submission appears on this page. The submission confirmation number is 691397f6-7017-4d61-8421-9e5b7a5a967e. Copy and save this number as proof of your submission.
