

My old password is saved in my internet browser. What should I do?

Even after changing your eCampus password, a browser may still contain your old eCampus password. Depending on the browser you have, the process for removing old, saved passwords may vary.

Internet Explorer

1. Open Internet Explorer.
2. Click **Tools** and select **Internet**.
3. Click the **Content** tab. Go to the **AutoComplete** section and click **Settings**.
4. Uncheck the box next to “**User names and passwords on forms**”.
5. Click **OK**.

Firefox:

1. Open **Firefox**.
2. Click **Tools** and select **Options**.
3. Click the **Security** icon.
4. Click Saved Passwords.
5. Select the **eCampus** site from the list of options.
6. Click **Remove** and then **Close**.

Chrome:

1. Open **Chrome**.
2. Click the Chrome menu icon.
 - a. The icon looks like 3 horizontal lines on the browser toolbar.
3. Select **Settings**.
4. Click the **Show advanced settings** link at the bottom of the page.
5. Scroll down to the **Passwords and forms** section.
6. Click the Manage saved passwords link.
7. Move your cursor over the **eCampus** site and click the **X**.
8. Click **Done**.

Safari:

1. Open **Safari**.
2. Click the **Settings** icon.
 - a. The icon looks like a gear wheel on the browser toolbar.
3. Select Preferences.
4. Click the **AutoFill** icon and click **Edit** next to **User names and passwords**.
5. Select the **eCampus** site from the list of options.
6. Click **Remove** and then **Done**.
