

The new **Course Availability** tool will allow instructors to change the start date of their course in eCampus to be available to students up to 7 days prior to the original start date of the course as set in STAR.

The tool is located under the Course Tools menu of the Control Panel.

When the instructor launches the tool, the tool will display the original course start date, and a date picker to set the new date.

**Course Availability**  
*Modify the student availability date for the course as applicable.*

---

**COURSE START DATE ADJUSTMENT**

Original Start Date August 15, 2018  
*You are allowed to change the start date of this course to 7 days prior to the original start date. Click the calendar icon to set the new start date and then click the submit button.*

Start Date    
*Enter dates as mm/dd/yyyy*

---

*Click **Submit** to proceed.* **Submit**

After selecting a date within the threshold, the instructor should click the submit button. If the update is successful, the instructor will see the message:

Course dates were updated

## Course Availability

Modify the student availability date for the course as applicable.

### COURSE START DATE ADJUSTMENT

Original Start Date

August 15, 2018

You are allowed to change the start date of this course to 7 days prior to the original start date. Click the calendar icon to set the new start date and then click the submit button.

Start Date

08/09/2018

Enter dates as mm/dd/yyyy

Click **Submit** to proceed.

Submit

If the date set by the instructor is outside of the approved threshold, the following message will display:

The start date selected is not within the threshold of 7 days earlier than original start date established by the administrator.

## Course Availability

Modify the student availability date for the course as applicable.
