

Departments can demonstrate that their programs and curriculums are effective with goal alignment to course content and activities. The process consists of the following steps:

1. Instructors do not have the ability create goals. Instructors can email a word document with their goals to ITSHelp@mail.wvu.edu or [log](#) a ticket with eCampus Team. eCampus administrators will then create the goals.
2. Once the goals have been created, instructors can align course content to one or multiple goals. Content types include discussion forums and threads, blogs, journals, tests and individual questions, assignments, and Grade Center columns.

Align course content with a goal

1. From a course content area, open a content item's menu. You can align goals to anything in the content area, such as files and discussions.
2. Select Add Alignments. (Example shown below is for a discussion forum)

3. The Discover Goals window appears. Browse and select the goals to align the content to.

Discover Goals

Align content items to Goals in order to report goals coverage information for this course. [More Help](#)

Active Goals

Actions	ID	Goal	Goal Set Name	Category
<input type="checkbox"/> <input type="checkbox"/>		Apply techniques to secure networks.	WVU Main Campus	CIS-109-VC0001
<input type="checkbox"/> <input type="checkbox"/>		Define network communication protocols and their application in networks.	WVU Main Campus	CIS-109-VC0001
<input type="checkbox"/> <input type="checkbox"/>		Describe wireless connection choices	WVU Main Campus	CIS-109-VC0001

Align Grade Center columns with a goal

1. Open a Grade Center column heading's menu and select View and Add Alignments.

2. Browse and select the goals to align to the Grade Center column.
3. Select Submit.

***Note:** The goals created by eCampus administrators are available to all instructors in the eCampus System.*
